I would like to have the opportunity to groom my career towards professional

I want to start my career to be independent in decision making and contribute same to my family. I am inspired by my husband and understand about my child is going to learn the same I talk, live, act each and every time. I have pursued my NTT teachers training for my daughter to train her into better future. But that alone is not sufficient to mould her into a complete human being. She needs to see and learn naturally from her parent. And I decided to mould my life towards professional.

TimeLine:

Completed **Nursery Teacher's Training**, on Sept' 2020

From International Montessori & Nursery Teacher's Training (NTT) Academy
